This slicer is in excellent used condition and comes with a guard. The item may have some signs of cosmetic wear, but is fully operational and functions as intended.

Product Description

The unit is an Original Bron Mandoline slicer made in France, circa 1970!

Built for professional Chefs - but at home in any gourmet food lover's kitchen. Size: 2 x 5 x 16

This massive mandoline is made from stainless steel and will last you your life time!

It cleans easily – just rinse under running water and let drip dry! No rusting.

It is great for evenly sliced chips, julienne, matchstick, French fry, waffle-gaufrette cuts, all perfect at any thickness; it is equipped with collapsible legs for easy storage. Not recommended for soft fruits.

The mandoline comes with a chariot (pusher, guard) that slides on rails for stability and protection and has a convenient wooden knob.

This unit has been previously used by professional Chefs and is in great condition.

We recommend watching the online You Tube video on the Bron-Coucke 38/39 mandoline for a demonstration on how to set up and how to use this indispensable kitchen tool.
